Mr. James Clyne  
Executive Deputy Commissioner  
NYSDOH  
Corning Tower  
Empire State Plaza  
Albany, New York 12237

Subject: Completion of Modock Springs Cancer Study

Dear Mr. Clyne

The NYSDOH and NYSDEC have conducted an extensive health and groundwater investigation in the Town of Victor (Modock Springs area). The Town has also developed a value protection program for the residents that live in the investigation area.

We have been working with Ms. Aura Weinstein (Director, Cancer Surveillance Program) on the Cancer Study for Modock Springs. She has routinely provided us excellent updates and communications on how the study has been progressing.

The purpose of this letter is to ask if you could please review the results of this study in the very near future so that the report can be released to the Town and citizens. Both the completion and implementation of our value protection plan hinge on the release and review of the Cancer Study. Our residents are waiting for your important response on this issue.

Any help that you can provide us would be greatly appreciated.

Best Regards,

Jack Marren
