Vision Statement 07/31/2006 - Work In Progress Dianne Parks and Marge Elder, Technical Writers

1. Victor is a vibrant, diverse community with friendly neighborhoods, visionary leaders, and energized citizens. We have struck a balance of rural, technical, historical, progressive, artistic and Green.
2. Nestled among streams and rolling wooded hills, our community breaks the cookie cutter mold; delighting us with differences in housing types, mixed uses, building size, design, and open spaces; expressions of each residents' personal vision of home.
3. We are a well-planned, environmentally-sensitive community. Our neighborhoods and businesses are welcoming, safe, and walkable, with gardens, shaded streets and sidewalks, trails through wildlife habitats, and public gathering places, where neighbors meet by chance or by design to work, swap stories, and to play.
4. We honor our ideas with passion, mindful that differences in culture, race, age, gender, and socio-economic status enliven our community by generating fervent conversations as we seek common ground, reflecting the diverse world in which we live.
5. We care for our own— young, old, and those in need—neighbor helping neighbor, well-worn paths to one another, celebrating moments of triumph and grieving our losses together in homes, businesses, on the street, and in places of quiet reflection.
6. We are a community of active partnerships among schools, businesses, governments, people, and organizations within Town boundaries and across the region, encouraging flexibility and change while keeping what works as we build a stable, diverse economy.
7. We embrace the heritage and natural beauty of our region which includes Ganondagan, a National Historic Landmark, where thousands of Senecas once lived; and Valentown, an historical museum which represents the local history of our area; along with our proximity to Canandaigua Lake and world famous wineries.
8. We are committed to nurturing a modern community, guided by our Vision, Mission and Core Beliefs. Our goal is to be a benchmark for the quality of life all of our citizens enjoy.
