Individuals 65 years and older: NYSDOH has designated Health Care Systems/Health Care Provider offices and pharmacies to vaccinate those 65 years and older. Patients in this age category whose doctor office is affiliated with URM or Rochester Regional Health will be receiving a phone call directly from their doctor office or Health Care System in the next few weeks and will receive an appointment date for vaccination.

[Finger Lakes Community Health](#) and [Mosaic Health Rushville](#) are also vaccinating 65 years and older.

Pharmacies are only able to vaccinate 65 years and older at this time. Check the following pharmacy websites for vaccination appointments:

- [Rite Aid Pharmacy](#)
- [Wegmans Pharmacy](#)
- [Kinney Drugs](#)

As more vaccine becomes available we will share information about COVID-19 vaccination clinics.

Visit the New York State Department of Health for more information on Vaccine eligibility and to access the Vaccine Tracker:
