

July 8th , 2022

Dear Resident:

As part of our commitment to providing safe and reliable natural gas service, Rochester Gas & Electric (RGE) is planning maintenance work on the natural gas line located on or near your property. Work is scheduled to begin on July 25th for physical assessments involving several excavations with restoration completed in early September, mobilization of materials and equipment may begin earlier near Fishers Road. For this work you may see RG&E personnel and/or our contractors on our right-of-way. We anticipate lane closures on Log Cabin Road and Fishers Road at the NYS Thruway and Benson Road just west of NYS Route 96. Contractors will be maintaining one lane traffic so there will be no anticipated road closures or detours. The work includes several excavation and assessments of the gas main with several overnight inspections anticipated between August 16th and August 26th. Once work is completed, any area that we have disturbed will be restored to original grade, seeded, and mulched.

Thank you for your patience and cooperation. If you have any questions regarding this work, please call me at **(585) 471-3002**. For our hearing-impaired customers, the following TTY numbers are available: **(585)325-3939 or 1-800-962-3293 (toll free)**.

Thank you

Sincerely,

Jeff LaChausse
Project Manager
